CHAPTER 3

PAGES & NAVIGATION

3.1. LANDING PAGE

Description:

A landing page is a standalone web page, created specifically for a marketing or advertising campaign. It's where a visitor "lands" after they click on a link in an email, or ads from Google, YouTube, or similar places on the web.

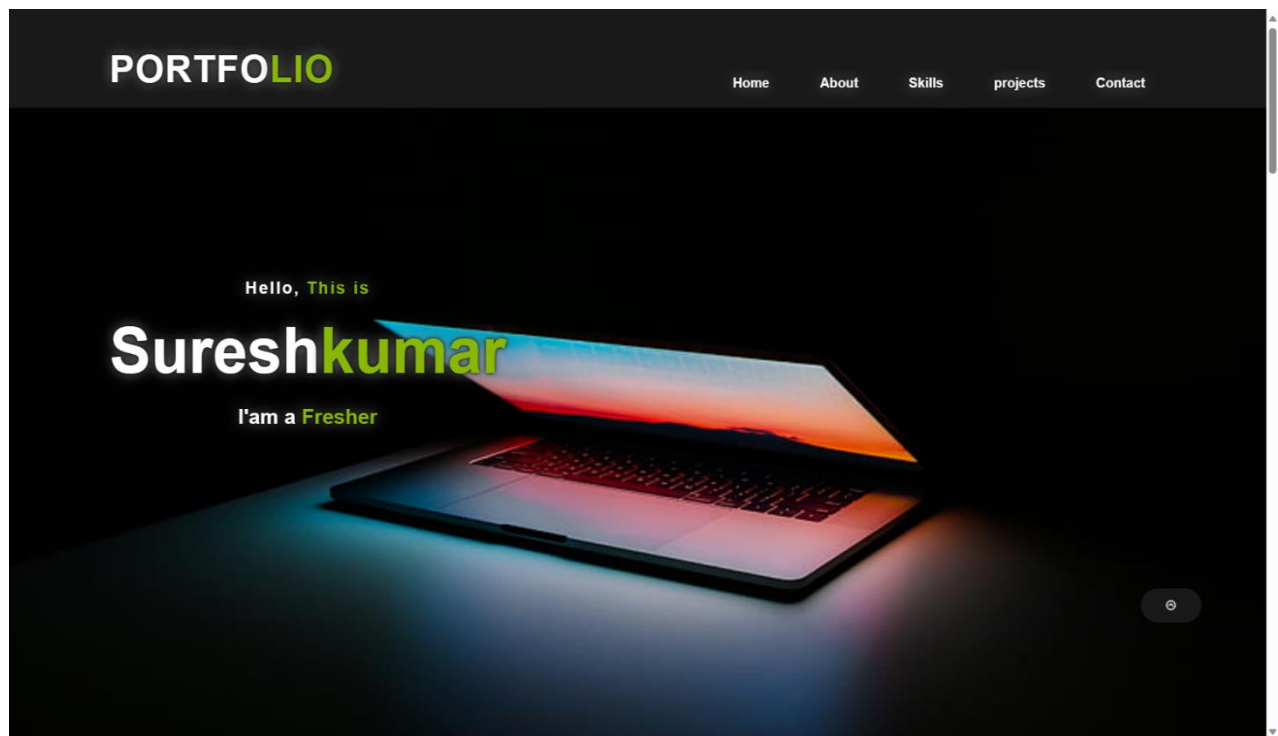

Fig 3.1.1

Fig 3.1.1 Displays the Github, LinkedIn, youtube are in footer.

CHAPTER 4

STYLES SCORE

4.1 FONT LINK

Description:

Styles are used to apply a unique style to an html element such as font, color, images.

A screenshot of a code editor with a dark background. It shows a CSS rule for a universal selector (*). The code is: padding: 0; margin: 0; font-family: 'josefin sans', sans-serif; box-sizing: border-box; The text is color-coded: padding and margin are in blue, font-family is in orange, and box-sizing is in blue. The closing brace is also in blue.

```
*{  
padding: 0;  
margin: 0;  
font-family: 'josefin sans', sans-serif ;  
box-sizing: border-box;  
}
```

Fig 4.1.1

Fig 4.1.1 Displays the about page using styles. In that font size in the about me color has changed.

4.2 STYLES LINK

Description:

It allows visitors to navigate through the site. Therefore styling the links properly is an important aspect of building a user-friendly website.

A screenshot of a code editor showing an HTML link tag. The code is: <link rel="stylesheet" type="text/css" href="./css/style.css" /> The text is color-coded: rel is in blue, stylesheet is in orange, type is in blue, text/css is in orange, href is in blue, and ./css/style.css is in orange.

```
<link rel="stylesheet" type="text/css" href="./css/style.css" />
```

Fig 4.2.1

Fig 4.2.1 Shows the about page. In this page the style link view CV visits to resume page.

4.3 USE OF GRID LAYOUT

Description:

Grid Layout excels at dividing a page into major regions or defining the relationship in terms of size, position, and layer, between parts of a control built from HTML primitives.

CHAPTER 5

WEBSITE INCLUDE THE FOLLOWING INFORMATION

5.1. Project Links to Github

Description:

I Paste the link of my Github id in the hyperlink that turns this into a clickable link that will take me to my Github page.

Fig 5.1.1

Fig 5.1.1 Display the Github icon in the contact page. Clicking on this icon will take to my Github page.

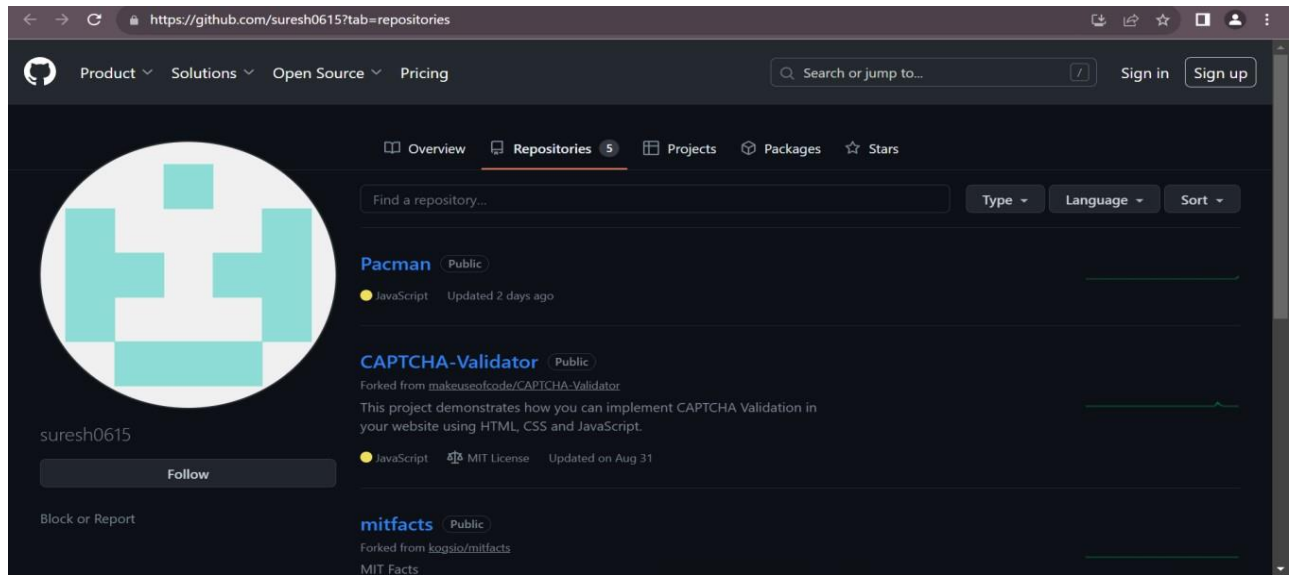

Fig 5.1.2

Fig 5.1.2 Displays the Github page when clicked on the Github icon it landed to Github page.

5.2 PROJECT DESCRIPTION

The main aim of this Project portfolio is an important asset as recruiters look to understand the coding experience. A good assortment of projects that are readily available to recruiters and hiring managers will work in favor as they look to understand the coding abilities. Having a well Maintained Github Portfolio enhances the resume and highlights the strengths as embark on software development journey. I used the home page, about page, resume page, project page, contact page as a navigation page. By clicking on each Page it will navigate to that particular page. Or by scrolling the page will also move to each page. In contact page also we can navigate into home page, about page, education page, project page. This project is compatible in mobile view, tablet view and laptop view.

CHAPTER 6

BOOTSTRAP

6.1. Uses Bootstrap

Description:

- Bootstrap makes responsive web design a reality.
- It makes it possible for a web page or app to detect the visitor's screen size and orientation and automatically adapt the display accordingly.
- Bootstrap's responsive CSS adjust to phones, tablets, and desktops.
- Mobile-first styles are part of the framework.
- Bootstrap is easy to set up and create a working layout in less than an hour.

CHAPTER 7

PROJECT README

7.1. Title Description (Min 20 words)

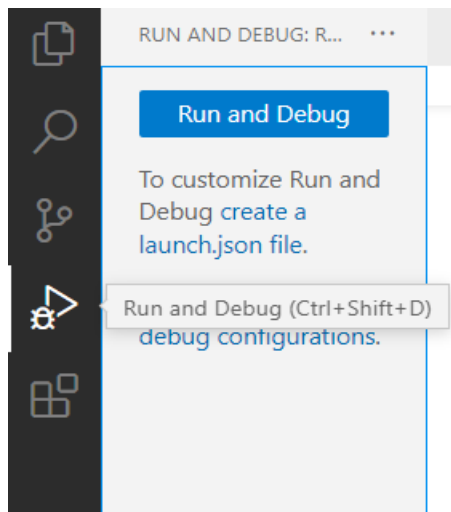

Description:

Portfolios include information about who you are and examples of your work and achievements. A traditional resume is included in a career portfolio along with written and /or visual information that highlights what you have to offer.

7.2. How to Run Project

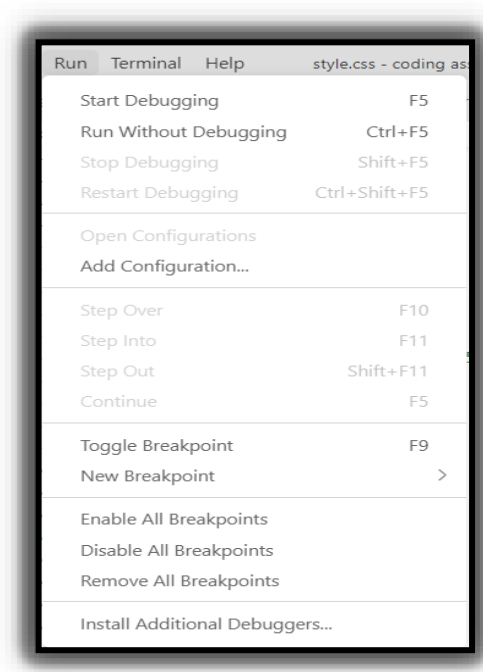

Description:

To bring up the Run and Debug view, select the Run and Debug icon in the Activity bar of the side of VS code. You can also use the keyboard shortcut Ctrl+Shift+D

The **Run and Debug** view displays all information related to running and debugging and has a top bar with debugging commands and configuration settings.

If running and debugging is not yet configured (no `launch.json` has been created) VSCode shows the Run start view.

Run menu

The top-level **Run** menu has the most common run and debug commands.

Run mode

In addition to debugging a program, VS Code supports running the program. The Debug: Run (Start without Debugging) action is triggered with `Ctrl+F5` and uses the currently selected launch configuration. Many of the launch configuration attributes are supported in 'Run' mode. VS Code maintains a debug session while the program is running, and pressing the Stop button terminates the program.

Tip: The Run action is always available, but not all debugger extensions support 'Run'. In this case, 'Run' will be the same as 'Debug'.

7.3. FUTURE IMPROVEMENTS OF PROJECTS

In contact page the message is not displayed when the button submit is clicked in future I make the button active and receive message when the submit is clicked.

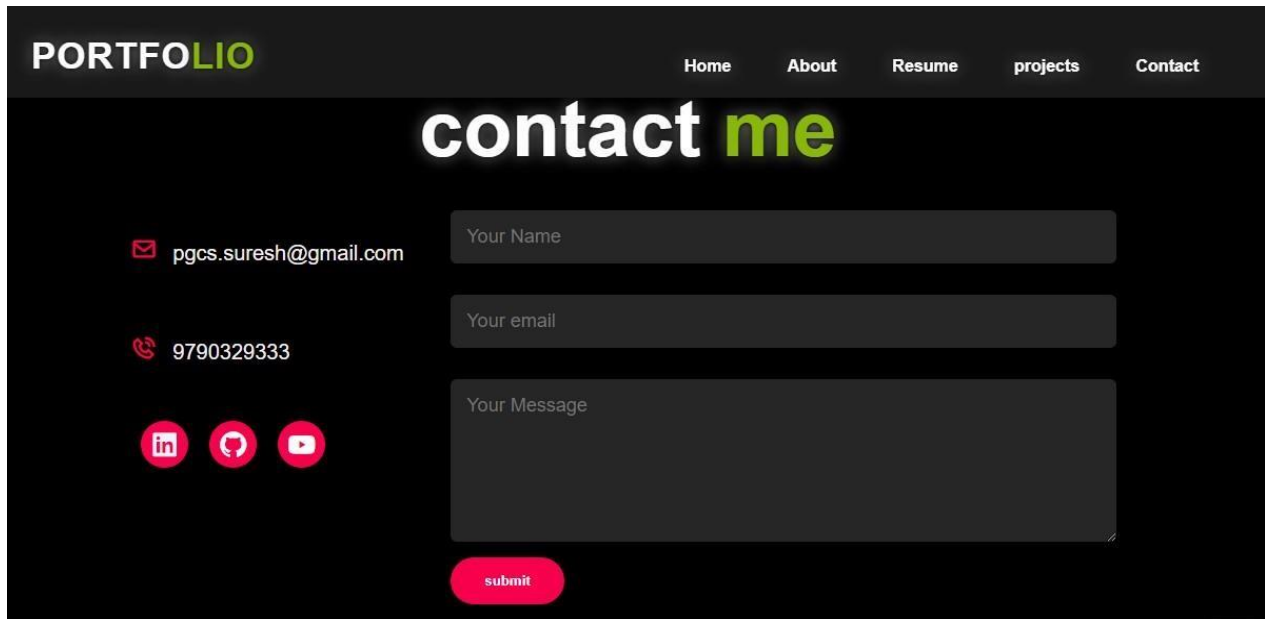

The image shows a dark-themed contact page. At the top, there is a navigation bar with the word 'PORTFOLIO' in white and green, and links for 'Home', 'About', 'Resume', 'projects', and 'Contact'. The main heading 'contact me' is prominently displayed in white and green. On the left side, contact information is listed: an email address 'pgcs.suresh@gmail.com' with an envelope icon, a phone number '9790329333' with a phone icon, and three social media icons (LinkedIn, GitHub, and YouTube). On the right side, there are three input fields: 'Your Name', 'Your email', and 'Your Message'. Below these fields is a red 'submit' button.

Fig 7.3.1

Fig 7.3.1 displays the Contact page and it consists of Name, Email, Phone, Message and Submit button.

CHAPTER 8

FILE STRUCTURE

8.1. Github file structure

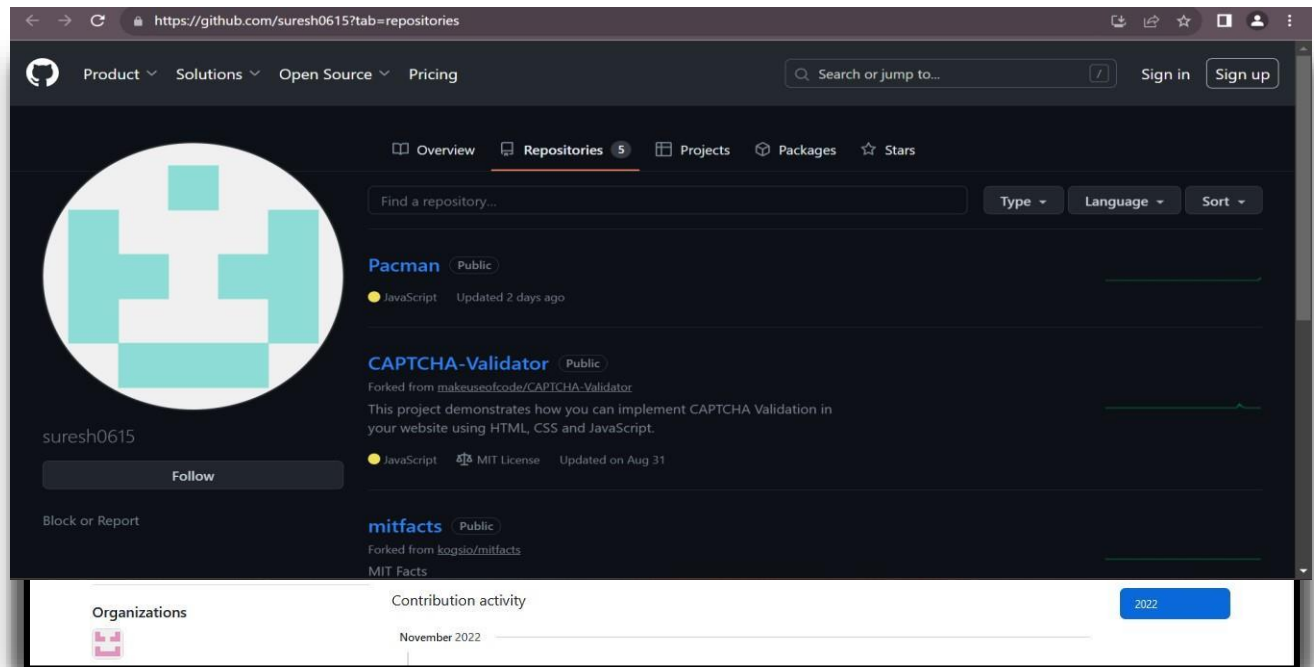

Fig 8.1.1

Fig 8.1.1 Displays the repositories in the github page by clicking on the any of the respositories will navigate to the project inside the link.
